

ROCKDALE DECORATIVE FENCE

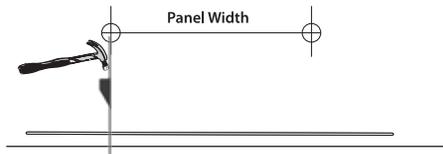

Installation

1

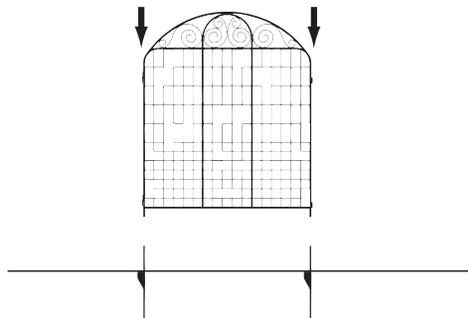

Stretch line along desired fence path. Determine starting point, usually a corner or the fence center.

2

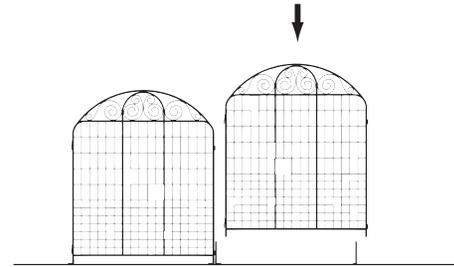

Hammer first stake into ground, aligned to string line. Stake fin tops should be at ground level.

3

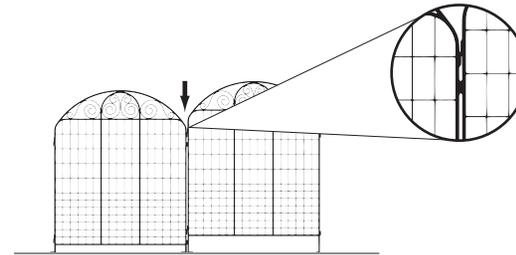

Place panel over stakes and insert onto the stakes.

4

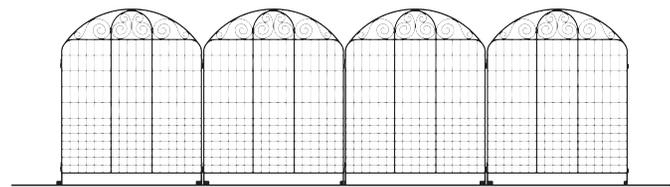

Position the next panel to mark the next stake placement in the soil.

5

Insert and link together with installed panel.

6

Repeat process until project is complete.
